*ACF is very interested in following up on the usage of grant monies that we expend. Having a full report of the impact of funded programs allows our grant screening committees to determine how best to release grants in the future, and to guarantee that our donor monies goes to worthwhile causes. We also use the information for public relations. It helps us to gain the interest of news media and to attract attention to the many good works of the programs in the Absarokee area that ACF helps to fund. Your input from this report is greatly appreciated and required if your organization intends to request additional funds in the future.*

Note: By submitting this report, you are authorizing ACF to use your name and quotes from this report in publications and with the media
